Abbinamento Vetri trasparenti e Profili

Vetro con il bordo coprente e la parte interna non coprente .
Glass with matte border and transparent centre area.

Disponibile solo per modello BIGLASS . Available only for BIGLASS model

I nuovi vetri della collezione BiSystem (presenti al Made 2012) permettono il passaggio della luce.

Sono disponibili in quattro tipologie: trasparente, satinato, riflettente-trasparente, riflettente-satinato. Ciascuna delle tipologie è ordinabile nelle tre finiture: Bianco neutro, Fumè, Bronzo. Ordinando uno dei vetri sopra indicati, il bordo del vetro scelto sarà in finitura coprente, per evitare che si veda il profilo in metallo dell'anta. Il colore del profilo metallico dell'anta condiziona il colore del bordo coprente del vetro, ad eccezione delle varianti bronzo e fumè (per i quali il bordo è sempre nero), secondo lo schema sotto riportato.

The new types of glass of the BiSystem collection (displayed at Made 2012) allow the light to filter through.

There are four types of glass available: transparent, satin, reflective-transparent, reflective-satin. Each type can be ordered in the three finishes: Neutral white, smoked and bronze. When ordering one of the above types of glass, the border of the selected glass will have a covering finish so that the metal profile of the leaf is not visible. The colour of the covering finish on the border of the window depends on the colour of the metal profile of the leaf according to the table below; the border is always black in the bronze and smoked versions.

BT: BRONZO TRASPARENTE / **BS:** BRONZO SATINATO / **BR:** BRONZO RIFLETTENTE / **BRS:** BRONZO RIFLETTENTE SATINATO / **FT:** FUMÈ TRASPARENTE / **FS:** FUMÈ SATINATO / **FR:** FUMÈ RIFLETTENTE / **FRS:** FUMÈ RIFLETTENTE SATINATO / **T:** TRASPARENTE / **S:** SATINATO / **R:** RIFLETTENTE / **RS:** RIFLETTENTE SATINATO

Colori dei profili . Profile colours.

Profilo Bianco	Profilo Avorio	Profilo Tortora	Profilo Nero	Profilo Inox	Profilo Alluminio

Per le tipologie di vetro sopra descritte, la serigrafia perimetrale coprente è sempre di colore NERO. Mentre per le altre tipologie sotto descritte, vige lo schema seguente:

Profilo Bianco	Profilo Avorio	Profilo Tortora	Profilo Nero	Profilo Inox	Profilo Alluminio
Serigrafia perimetrale coprente sul vetro: colore ICE <i>Opaque print border on the glass: ICE</i>	Serigrafia perimetrale coprente sul vetro: colore CORDA <i>Opaque print border on the glass: CORDA</i>	Serigrafia perimetrale coprente sul vetro: colore ARGILLA <i>Opaque print border on the glass: CLAY</i>	Serigrafia perimetrale coprente sul vetro: colore NERO <i>Opaque print border on the glass: BLACK</i>	Serigrafia perimetrale coprente sul vetro: colore MADREPERLA <i>Opaque print border on the glass: MOTHER OF PEARL</i>	Serigrafia perimetrale coprente sul vetro: colore MADREPERLA <i>Opaque print border on the glass: MOTHER OF PEARL</i>
